

EARLY HISTORY FACTS

65 million years ago:

Dinosaurs became **extinct**.

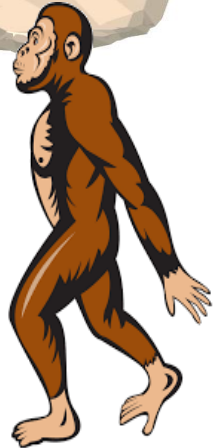

7 million years ago:

Small **ape-like** people appeared.

4 million years ago:

The people changed to have **bigger brains** and began to **walk upright**.

2 million years ago:

They began to use **stones** for tools.

They used broken pieces of **flint** which had **sharp edges** for cutting.

This is why we call this era the **Stone Age**.

When did dinosaurs become extinct?

When did small ape-like people appear?

How did these people **different** to the Stone Age people before them?

Why was this era called the **Stone Age**?

Stone Age people did not have shops, they had to **make** everything themselves.

The materials they had were all **natural**.

Things like, stone, bone, rope, straw, shells leather and clay.

Your task is to design **YOUR OWN** Stone Age tool. It can be a weapon, something to hunt or eat with, jewellery or even something to play music on! You can **only use** the material listed above.

YOUR OWN STONE AGE TOOL

List the Materials you used:

What would it be used for?
